-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 19 January 2005.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-5, 7-10, 12-15 and 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Egorov et al (6,326,921) [of record].

Egorov et al in figures 1-6 disclose an antenna comprising a parasitic element 350 positioned to be operatively coupled to the PIFA 310, wherein the parasitic element is ohmically isolated from ground (see figure 4) and wherein RF energy is radiantly coupled between the parasitic element and the PIFA, wherein the parasitic element conforms to a surface 340 that is separated from the PIFA, and wherein the surface comprises at least a portion of a case of a wireless communications device (figure 6), at least two conductors 310,350 arranged so as to radiantly couple RF energy between the parasitic element and the PIFA antenna and at least one of a receiver (see claim 1 of Egorov et al) for wirelessly receiving transmitted signals and a transmitter for wirelessly transmitting signals.

Since all the claimed structures are shown by Egorov et al, the parasitic element is configured and positioned so as to further induce wireless operation of the PIFA within at least one additional frequency band would result.

***Allowable Subject Matter***

3. Claims 2-3, 6, 11, 16, and 20-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. Applicant's arguments filed 1/19/05 have been fully considered but they are not persuasive.

Applicant argues that Egorov et al fail to disclose a parasitic element positioned to be operatively coupled to the PIFA, and wherein the parasitic element is ohmically isolated from ground. However, Egorov et al in figure 4 clearly disclose a parasitic element 450 positioned to be operatively coupled to the PIFA 410, wherein the parasitic element 450 is ohmically isolated from ground 440 (this would occur because the parasitic element is not at the same plane as the pcb ground, see column 6, lines 35-40).

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
